

SYNERGIST

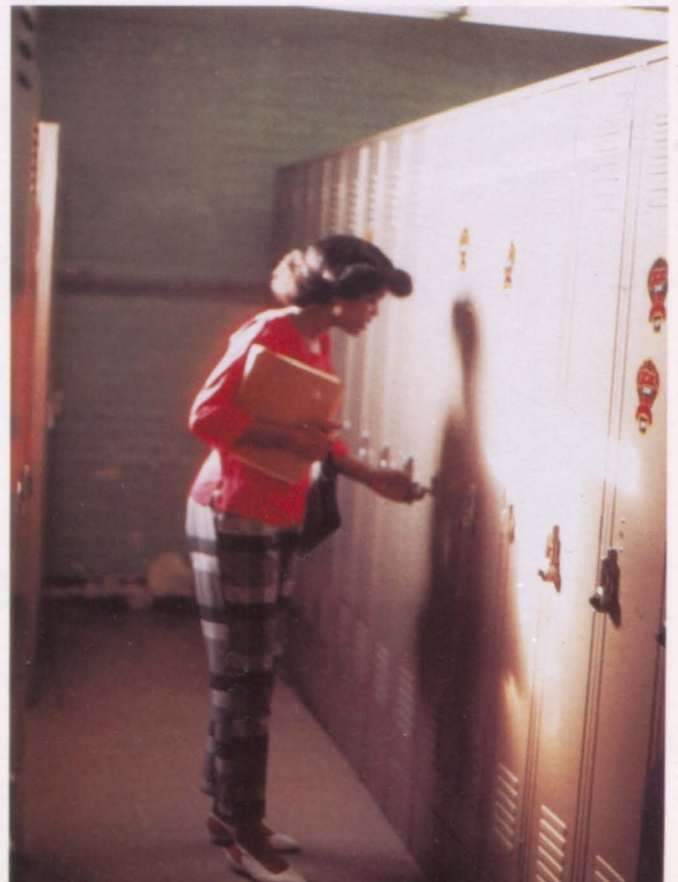

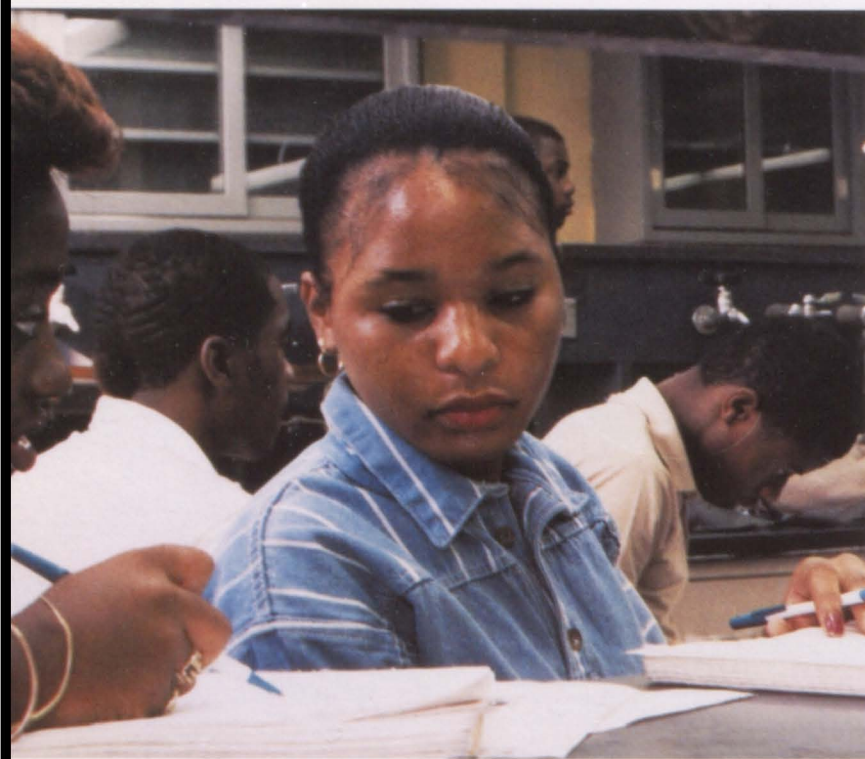

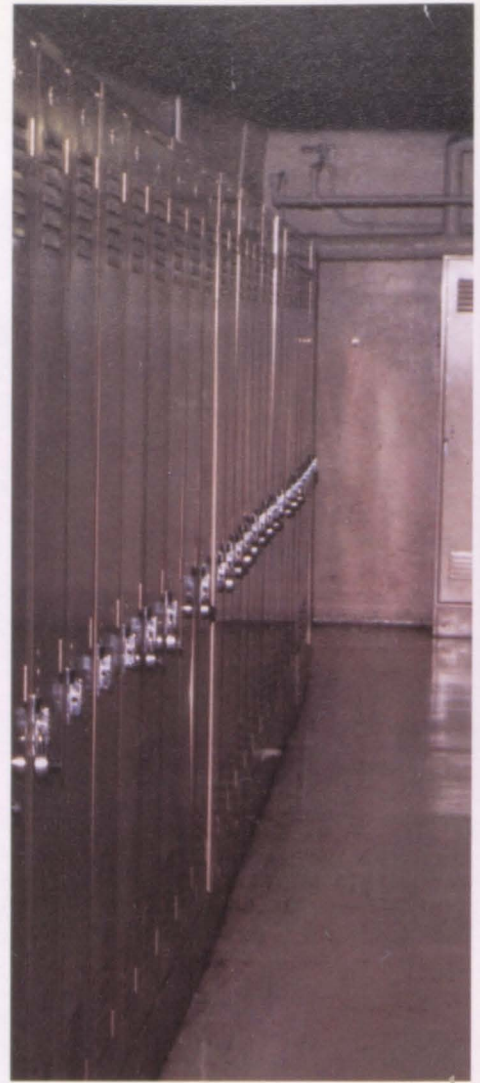

SCIENCE HIGH SCHOOL
NEWARK, NEW JERSEY
1986

On a September day in 1982, we Seniors passed for the first time under the art deco and through the doors of Science High to begin our high school careers. Little did we realize then that the artwork actually symbolized our education. The torch, the books, and the scales represent learning. But these symbols are held by people. The human factor brings life to the world of academics. People make Science High live. The *Synergist* is about people.

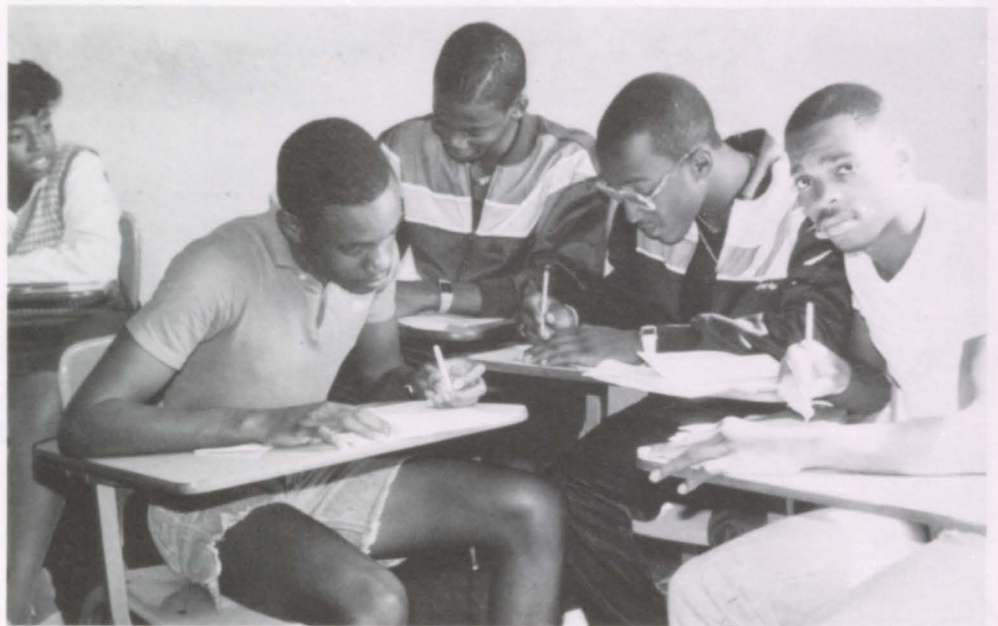

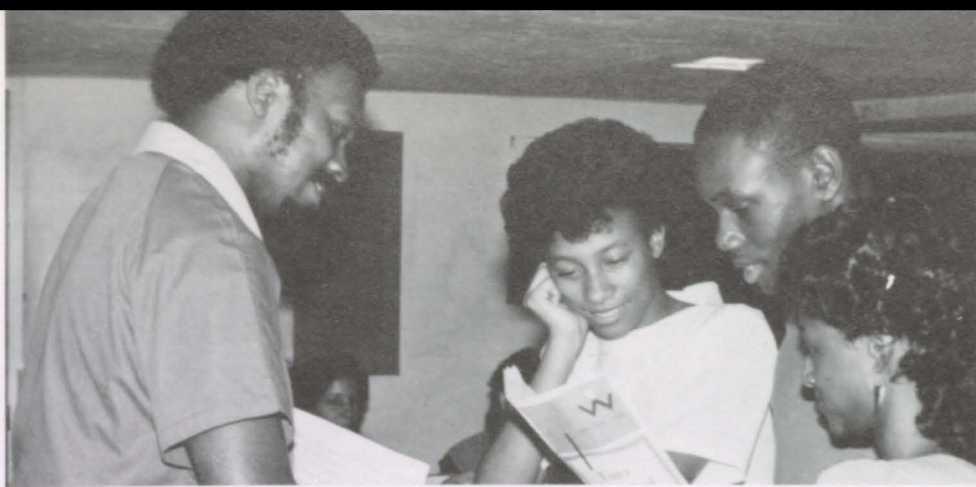

Science High is books, pencils, lockers, labs, and

PEOPLE

Student life combines our own individual interests and talents to provide a respite from our daily academic life.

Friendship is the bond that gives Science High its personality. We meet between classes and reveal that we are not just students interested only in intellectual pursuits, but also real people. We share the moments that make us enjoy life with laughter and joy. We grow with each other like brothers and sisters — a family of friends.

The friendships built at Science High are as solid as the mortar and bricks that went into the construction of the school. These friendships are solidified on the stairways, in the locker rooms, and in the hallways. The friendships will last a lifetime because we have all shared in the trials and tribulations of daily school life. The strength of our school is symbolized in the unity of its students.

You can never be lonely when you have friends. Thieves will steal your heart, but friendship mends it. Trust is hard to come by, but friendship can afford it. Friendship is the sunshine that brightens up your day. We not only work together, but we play together. As we climb over the brick wall of life, we can't do it alone — we need friends.

SENIOR COUNSELOR AND ADVISORS

To the three people who helped our class the most, we give our thanks and gratitude. We will never forget their dedication, their patience, their determination, and their parent-like concern for the welfare of each one of us. They provided us with direction at a time when we needed it the most. Year after year they gave us the courage to face our difficulties and to overcome them.

With all our love,

The Class of 1986

JR.-SR. BASKETBALL November 27, 1985

School years are filled with traditions. At Science High, the annual Jr.-Sr. boys' basketball game has usually been the initial intramural sports activity. This year's game was a hard-fought battle which gave the crowd plenty of opportunities to cheer and roar. And roar they did! The final score showed the Juniors victorious, but the Seniors played with intensity. We're proud of you Seniors!

When I was a Freshman, I wanted an image. The most important thing was to give people a definite idea of who I was. So I tried to find myself, but I kept looking in the wrong places. I tried to imitate Seniors. I wanted people to see me around a lot of friends. I talked loud. Most importantly, I wanted people to think that I was anything but a Freshman. But, I defeated my purpose because by acting the way I did, I showed people exactly what I didn't want them to know: I was afraid and insecure. I've come to realize that I cannot create someone. I cannot look at other people and say, "That's me." I must look inside myself. People will judge me by my actions, and if I try to be someone I'm not, they'll think that I'm a fake. The real me is inside. It's in my heart and in the way I feel about things. Once I straighten out my emotions, I'll start to grow up. I can then accept myself. I will then reach the day when I love the special individual I am.

If last year's initial varsity boys' basketball season was a learning experience, then Coach Gaylord's squad absorbed the lessons well. This second season produced a 16-8 overall record and an appearance in the Group 1 North Jersey Section 2 State Tournament. The season's highlights included an exciting 5-1 start and a thrilling 6-2 finish. Once again Science was victorious in a season opening tournament, this time in the Summit Shoot-out. Games against some powerful teams proved that the Chargers were "for real." An opening round victory in the State Tournament was the crowning point of the season.

The hard work, the intense desire to succeed, and the determination to play well produced this magnificent record. To the players and their coach, Mr. Gaylord, we say, "Congratulations!"

If last year was a learning experience for Science High School's Girls' Varsity Basketball Team, then the 1985-1986 season showed that with patience and determination the girls did indeed improve. The five victories this season more than doubled last year's total. Led by Seniors Qamar Davis and Venus White, Coach Perkins' squad, once again playing against seasoned veterans, displayed signs of maturing as a team. The learning process continued with a strong desire to improve over last year. To all involved, we say, "Nice going."

VARSITY

J.V. AND NOVICE

SCIENCE HIGH SCHOOL CAPTURES STATE CHAMPIONSHIP IN LINCOLN DOUGLAS DEBATE — FOURTH CONSECUTIVE TITLE IN A VARSITY DIVISION

Once again Mr. Farrand's debate teams completed a highly successful year with still another state championship on the varsity level. Jonathan Alston captured the varsity state championship in Lincoln Douglas debate. The teams in the varsity debate division placed fifth and sixth while the novice team finished in second place. Three debaters, Brenda Douglas (Senior), Jeff Dodson (Senior), and Terence Davis (Junior), will represent Science High at the National Finals in Tulsa, Oklahoma.

If hard work and determination are necessary ingredients for success, then it is easy to see why Science High Debaters did well. Added to these ingredients was the tradition of excellence in local, state, and regional competition. The result was another exciting and highly rewarding year for Mr. Farrand and the Science High Debate Team.

I am unique, lovable, and irreplaceable.

How do I know I love you?

Let me try to explain.

Because of you, I'm equal

To sorrow and to pain.

Just knowing you are near me

After each day is done

Makes a losing battle

Seem as though it's won.

You are understanding, a tenderness divine

All things wonderful and good

That heaven can design.

Through trials and tribulations

You help me smile through tears.

Your warm touch is like a magic wand

Chasing my doubts and fears,

Beside me ever and ever

Keeping my faith aglow.

How do I know "I Love You?"

This is how I know.

I'll love you always, Mommy and Daddy

Congratulations Tammy and Valija. We love you.

Dad, Mom, and Mia

Tammy, our daughter,

We wish you all the luck and
success in the future.

Congratulations!
Mrs. Cat & Mr. Leroy

To Our Daughter, Chandra,

Congratulations, Honey. You've made us two very proud and happy parents. For that we're grateful and for this we're hopeful. That your future is filled with health, success, and happiness. That along with pride, you always have love and respect for yourself, extend it to others, and receive it in return. That you follow your own mind, set your own values, and consider the consequences of your actions. And that you never exclude God from your life.

Sweetheart, all of our love
Always,
Mom and Dad

A yearbook become a reality only through the efforts of many people. The 1986 *Synergist* owes its existence to a cooperative yearbook staff, to understanding faculty members, to the professional assistance of Joe Shoopman from Taylor Publishing and Shirley Vetter of Lorstan-Thomas Studios, and especially to two hard-working Seniors: Editor Vanessa Dyke and artist Jesus Mercado. I thank all who helped produce this book of beautiful memories.
